Fire safety
Challenges for Fire Professionals

INTRODUCTION

In collaboration with Institution Of Fire Engineers Malaysia (IFEM) and Malaysian Fire Protection Association (MFPA), once again Fire and Rescue Department Malaysia (FRDM) is organizing the biggest International Fire Conference and Exhibition in Malaysia in 2012.

With full of excitement and enthusiasm, the International Fire Conference and Exhibition Malaysia 2012, IFCEM 2012, will become a major platform to harmonize issues and technology on fire safety, sustainability, disaster management, fire and rescue operational protocol and experiences.

All professional leaders in this expanding field are invited to experience this show case, designed to keep the industrial players ahead of tomorrow's needs.

AIMS & OBJECTIVES

As a platform for the interaction of information on the development of today's progress.

As an avenue to promote and establish networks of partnership and cooperation among the fire industry key players.

To highlight the latest fire safety products and technology.

EVENT'S PROGRAMME

The three-day event will feature conference, exhibition, live demonstration, technical visits and product promotions which will show case the latest products, state-of-the-art technology and cutting-edge innovations in fire safety industry and disaster management.

Well known speakers and experts will be presenting topics on today's interest highly focusing on the issues of fire safety, sustainability, disaster management, fire operational protocols ad experiences.

Apart from the stressful day's event, participants will be rejuvenated with social programme and treated with Malaysian hospitality during conference's dinner and traditional cultural show.

**ABOUT THE VENUE**

Kuala Lumpur City Centre, fondly known as KLCC provides a fitting location for Kuala Lumpur Convention Centre. Designed to be a "city within a city", it is easily the heartbeat of the capital city of Malaysia with a number of multinational offices and various businesses making their home there. Kuala Lumpur Convention Centre is in the midst of it all overlooking the picturesque KLCC Park while the iconic PETRONAS Twin Towers and Suria Shopping Complex lend a prestigious address to the building, not to mention a welcome distraction for those of you inclined to loosen up after a hard day's work! Accommodations are literally a step away with the surrounding area being home to a number of major hotels which include Mandarin Oriental Hotel, Traders Hotel and Impiana Hotel. The Kuala Lumpur Convention Centre is well connected to the rest of Kuala Lumpur by way of public transports system with the Light Rapid Transport train stopping at the KLCC station, located just underneath the PETRONAS Twin Towers.

The artfully-designed Kuala Lumpur Convention Centre will hold both conference and exhibition under one roof, providing a seamless environment where participants can attend presentations and visit exhibits at the same time. Already considered the best in the region and backed by highly functional and flexible architecture, state-of-the art facilities and highly capable personnel.

VENUE

Kuala Lumpur Convention Center
KLCC, Kuala Lumpur, Malaysia

DATE

20th -22nd November 2012

TIME

8.00 am to 5.00pm
